

Congratulations on purchasing your Gigaset cordless phone. Before configuring your handset to use engin VoIP, please ensure you have installed your equipment as per the Gigaset User Guide. If you need help with setup please visit <http://www.engin.com.au> and click on the live chat support link, or call 1300 305 000 (8am - 9pm M - F, 9am - 3pm Sat, Closed Sun)

Follow the 5 steps below to get up and running:

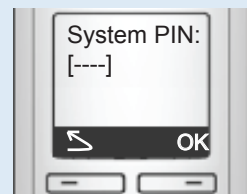

- 1 Once you have set up your equipment, the Messages key will flash red. Press the Messages key to begin the configuration process

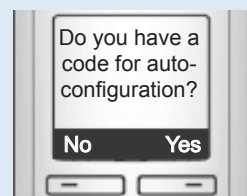

- 2 Select Yes to start the VoIP connection wizard.

- 3 You will be prompted to enter the system PIN. The default PIN is 0000. Enter your PIN and press OK

- 4 Your auto-configuration code is in your engin welcome email. Press Yes if you have it. If you do not have a code, please call support to get one

- 5 Enter your 15 digit code and press OK. After about 10 seconds you will be ready to use your engin service
