## Engin welcomes Seven bid for Unwired

**Sydney - 27<sup>th</sup> September 2007:**

The Board of Engin today welcomes Seven Group's announcement of its intention to launch an official take over bid for Unwired Group Ltd (Unwired - UNW.ASX), and views its interest as a strong endorsement of WiMax Technology.

In making its announcement today, Seven has stated that, 'it is wholly supportive of the strategic benefits identified by Engin at the time of its investment in Unwired.'

Engin recognises that the commercial roll out of WiMax in Australia will require significant capital deployment, and Seven's involvement is critical in this regard. Engin looks forward to developing the strategic relationship with Seven to realise the synergies between the Engin and Unwired businesses and to develop the next generation of wireless broadband technology and applications for the Australian marketplace with the triple play objective now set to take a further step forward.

Ends.

### **About Engin**

Engin, listed on the ASX (ENG), is Australia's leading Broadband phone company, cutting the cost of calling for tens of thousands of homes and small businesses across Australia. By using Engin products, broadband users can keep their previous phone number to receive calls, whilst making great savings with their outbound calls. Engin's customers receive high quality calls using VoIP (Voice over Internet Protocol) technology. Engin is the primary distributor of TiVo which is expected to launch in Australia in early 2008.

Engin is headquartered in Sydney, Australia and was granted its telecommunications carrier license in March 2004 to deliver a digital voice service across existing broadband connections. Winner of the ATUG Best Communications Solution – Small Business 2006 award and the 2005 iAwards AIA communications category, Engin provides affordable telecommunication alternatives for all Australian consumers and businesses.
