WHAT'S COVERED?

1. What is the Toolbar?

2. How do I install it?

3. How do I use it?

4. How do I get more information and support?

Hosted Phone PBX Toolbar

Hosted Phone PBX Toolbar is your engin call management and configuration toolbar.

Use any of the following browsers or applications:
- Microsoft Internet Explorer
- Outlook
- Firefox

Hosted Phone PBX Toolbar allows you to manage your engin service including:
- Control of incoming and outgoing calls
- Changing the call settings of your engin service, like voice mail settings

Installing the Toolbar

You can download and install the engin Hosted Phone PBX Toolbar plug-in from the URL below: http://www.engin.com.au/hosted-phone-resource-centre
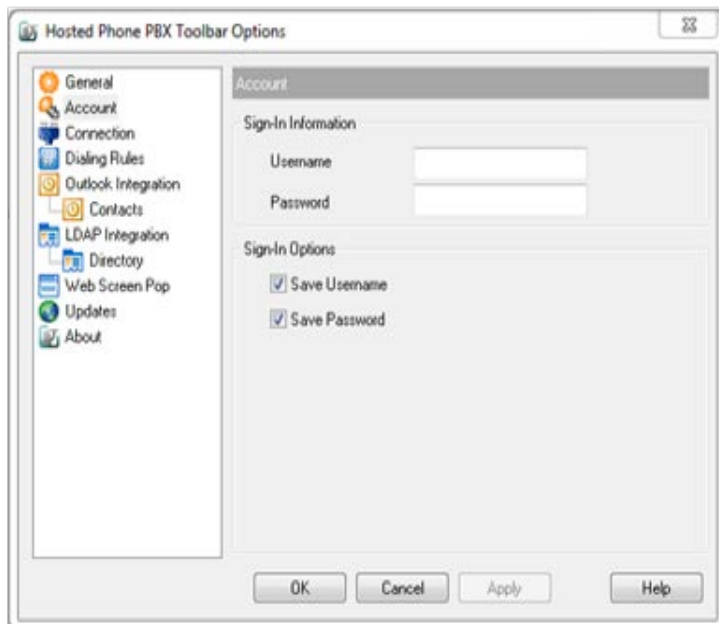

Installing the Toolbar

Once installation is complete, you will be asked to enter your login credentials as follows:

Username = <phonenumber>@voice.mibroadband.com.au(for example a user with number (03) 9 348 8331 would enter 0333488331@voice.mibroadband.com.au)
**Password** = Password provided you by your administrator

Click OK to save your changes
